The Board attempted to meet and did not have a quorum. Approval of the minutes and the GM Monitoring Report: B1 – Financial Monitoring will wait for the June meeting.

Discussion

Summer asked if the fact that we have not been paying both an Operations Manager and a General Manager is why the financials are looking so good.

Matt responded that it could be partially the case and why he does not want to fill the OM position, but most of the good report is due to the improvement in the margins.
